### About Me

Motivated junior web developer looking for a role as full-stack web developer. Passionate about building first-class web applications. Developed an e-commerce website for a local fashion retailer while at serving my country. Relevant skills include Database, Debugging, and more.

### Work Experience

#### FRONTEND DEVELOPER

2018 - 2020

FREELANCER | 2018 - 2020

As a web developer, I worked on creating interactive web applications and collaborate with the back-end team. Your responsibilities include user interface development, cross-browser compatibility, accessibility, and continuous learning.

#### BACKEND DEVELOPER

2020 - 2022

FREELANCER | 2018 - 2020

Proficient in backend programming languages like Python and PHP. Familiar with popular frameworks and servers such as Django, Laravel, Apache, and Nginx. Stay updated with the latest advancements in these tools for optimal web development.

#### GRAPHIC DESIGNER

2019 - 2022

FREELANCER | 2019 - 2022

Building a brand identity on digital media involves designing visually appealing branding elements and following branding guidelines. It helps establish a recognizable and cohesive brand presence. By doing so, companies can enhance visibility, engage with their target audience, and differentiate themselves in the digital landscape.

#### DESKTOP APPLICATION

2019 - 2020

FREELANCER | 2019 - 2020

Note-Taking Application: Create a simple application that allows users to take notes and save them. This project demonstrates your understanding of basic user interface design and file handling in C#.
